HOUSE REFUSES TO QUEBEC VETO

Opponents of Immigration Bill With Literary Test Surprised by Action.

Washington, D. C., Feb. 13.—The house today refused by a vote of 213 to 114, to pass the Dillingham-Burnett immigration bill over the president's veto. Five votes changed from the negative to the affirmative would have given the two-thirds necessary to override the veto which was overturned in the senate Tuesday.

The fight centered on the literacy test feature of the bill and the result was a distinct surprise, even to those most earnestly opposed to the measure.

Millions for Pensions. The largest pension bill ever reported to congress, carrying appropriations aggregating \$180,000,000, was passed by the house by a vote of 210 to 40, with an amendment which will make necessary an additional appropriation of more than \$1,000,000.

Working Balance. Secretary McVane testified before the treasury department expenditures committee that \$35,000,000, above current liabilities was the practical working balance for the treasury. The senate resumed debate on the District of Columbia appropriation bill. The interstate commerce committee voted to favorably report the bill for the valuation of all railroads and interstate carriers.

Pujo Depends Undermyer. FOR QUIZ OF ROCKEFELLER. Washington, D. C., Feb. 13.—A lengthy statement defending the course of Samuel Undermyer in his examination of Wm. Rockefeller for a house money trust committee was issued here by representative Pujo, chairman of the committee.

The press has seen fit to attack Mr. Undermyer, charging him with the "pur-suit" of Mr. Rockefeller. This is unjust and unfair to Mr. Undermyer," said the statement.

Chairman Pujo called a meeting today for the money trust committee for next Monday, when statement summing up the testimony of the various witnesses will be placed in the record. The committee will take up the consideration of its report Tuesday.

THE COURTS.

TAXATION REFORM UP AT SANTA FE

Discussion of the Measure Occupies Much of the Time of the State Legislature of New Mexico.

Santa Fe, N. M., Feb. 13.—Taxation reform was the feature of the senate session Tuesday, a proposed constitutional amendment providing for marked changes in the system of taxation and a bill extending the powers of the state board of equalization and taxation lines being introduced. The first was by senator Clark, chairman of the finance committee, and the second was by senator Crampton, chairman of the judiciary committee. It is said this last is the measure which the board of equalization wants passed.

The bill provides for the assessment of all property, both by counties and by the state board, at a valuation of 25 to 30 percent of its actual value. This changes the acts which now compel the state board to assess at full value, whereas it has been customary for the county assessors to fix their assessments at amounts varying from 10 to 20 percent of the real valuation. Through the announced intention of the state board to compel the taxpayers under its jurisdiction to settle on a full valuation basis, there has arisen a serious situation, these taxpayers protesting that they are being made to carry an unfair proportion of the burden. The Crampton bill is the first official recognition that assessments are not now made at full value. The sessions of both houses Tuesday were comparatively brief and each adjourned at the conclusion of the day's work to 1 o'clock Thursday afternoon.

George Meierlin, the wealthy Cincinnati brewer, accompanied by his family left for the east Tuesday evening. They had been in El Paso several days.

J. Bromberg has gone to Milwaukee on business.

BOMB WRECKS HOME OF LLOYD-GEORGE

London, England, Feb. 13.—The country residence of the chancellor of the exchequer, David Lloyd-George, at Walton Heath, was practically destroyed this morning by a bomb which the police say was placed there by militant suffragettes or their male sympathizers.

Lloyd-George himself is on a motor trip in France. Nobody was injured as the residence had not yet been occupied. "Clark" Mrs. Flora Drummond, however, declared that the explosion was undoubtedly the work of women. She explained enthusiastically: "I think it is grand. It was a fine act successfully carried out and shows the determination of the women."

LEGISLATURE WILL PROBE NEW YORK POLICE FORCE

Albany, N. Y., Feb. 13.—Vested with broad powers, a joint committee of the legislature will seek advice from various sources in New York with a view to drafting remedial legislation for the police department. The committee formally organized by electing senator Robert F. Wagner, Democratic leader of the upper house, as chairman. He was empowered to appoint a subcommittee to go to New York and confer with Mayor Gaynor, district attorney Whitman, the administrative committee and others. Public hearings probably will begin there on Feb. 26, and continue during the following week.

the code revision committee, at the request of the county affairs body. A petition was received from the Globe branch of the Arizona Equal Suffrage league, asking that the eight-hour law for women be passed.

Hughes' bill for the employment of prisoners in jails passed the senate Tuesday. It provides for the care of the wives and minor children of men working in jails.

The Harrison bill to raise the fee for inspecting cattle from 5 to 10 cents a head was passed without division, but the vote was reconsidered and it was sent to the enrolling and engrossing committee for some minor corrections. A favorable report was submitted by the judiciary committee on Hughes' bill limiting the use of the word "trust" in the names of corporations, and requiring that all trust companies be under the supervision of the state bank examiner.

Pace's anti-tipping bill was reported favorably by the judiciary committee. Another bill reported favorably by the same committee was Hughes' anti-third degree law, providing penalties for officers who mistreat prisoners.

Senator Kinney introduced a measure similar to one brought up last year. It gives city police judges the same powers, within their individual jurisdictions, as justices of the peace now have. Any fines collected by the police judges go to the cities, not the counties.

This bill, if it passes, will affect the business of a number of justices of the incorporated cities of the state. The report of the board of medical examiners was received and referred to the committee on appropriations.
